

simply beautiful

esthetic system for zirconia and lithium disilicate

MiYO® Makes it Beautiful

- » Color stable - won't fade during firing
- » Translucent self-glazing Colors that don't puddle or run
- » Achieve depth, translucency and effects in 0.1 – 0.2mm
- » Float wet Color on top of Color without mixing in one application
- » What you see is what you get – Colors are the same wet and after firing
- » For use on post-sintered zirconia & post-crystallized lithium disilicate

MiYO Chairside Kit Components
14 jars, 1 liquid, 3 tools
